

Functional Requirements

 This document defines the functional requirements for the Subscription Cancellation & Retention Platform. It describes how the system should behave to support the business requirements outlined in the BRD.

FR ID	Module	Functional Requirement	Priority
FR-001	Subscription Management	The system shall allow customers to initiate subscription cancellation from their account settings.	HIGH
FR-002	Cancellation Feedback	The system shall display a list of predefined cancellation reasons.	HIGH
FR-003	Cancellation Feedback	The system shall allow customers to provide optional comments during cancellation.	MEDIUM
FR-004	Retention Engine	The system shall display a retention offer based on the customer's selected cancellation reason.	HIGH
FR-005	Retention Engine	The system shall allow customers to accept the retention offer and continue their subscription.	HIGH
FR-006	Cancellation Workflow	The system shall allow customers to reject the retention offer and proceed with cancellation.	HIGH
FR-007	Confirmation	The system shall display a confirmation message after cancellation is completed.	HIGH
FR-008	Notification	The system shall send a cancellation confirmation email to the customer.	MEDIUM
FR-009	Reporting	The system shall record cancellation reasons for reporting purposes.	HIGH

FR-010	Reporting	The system shall record retention offer outcomes for business reporting.	HIGH
--------	-----------	--	------

Functional Module Breakdown

Module 1- Subscription Management

▼ Features

- Cancel subscription
- View cancellation summary
- Confirm cancellation

Module 2- Cancellation Feedback

▼ Features

- Select cancellation reason
- Submit optional comments

Module 3: Retention Management

▼ Features

- Display retention offer
- Accept retention offer
- Reject retention offer

Business Logic Reference

Retention offers shall be generated based on the Retention Offer Logic defined in the BRD. The offer presented to the customer will depend on the cancellation reason selected during the cancellation process.

Module 4: Reporting & Analytics

▼ Features

- Track cancellation reasons
- Track offer acceptance
- Track churn metrics

User Flow Mapping

Step	User Action	System Response
1	Click Cancel Subscription	Open cancellation workflow
2	Select cancellation reason	Save selected reason
3	Submit feedback	Generate retention offer
4	Accept offer	Continue subscription
5	Reject offer	Proceed to cancellation
6	Confirm cancellation	Complete cancellation
7	Exit workflow	Send confirmation email

Non-Functional Requirements

NFR ID	Category	Requirement
NFR-001	Availability	The system shall be available 24/7.
NFR-002	Performance	Cancellation workflow pages shall load within 3 seconds.
NFR-003	Security	Customer data shall be encrypted and securely stored.
NFR-004	Compatibility	The platform shall support desktop and mobile devices.
NFR-005	Data Retention	User feedback data shall be retained for reporting purposes.

Dependency Mapping

Dependencies

- Retention offers must be configured by the Marketing Team.
- Active subscription data must be available.
- Email notification service must be operational.

- Customer account information must be accessible.

Traceability Matrix

BRD Requirement	FRD Requirement
BR-001	FR-002
BR-002	FR-004
BR-003	FR-006
BR-006	FR-007
